

UPDATE 2021 Highland Lakes Camp Guidelines While at Camp

1. Washing your hands several times per day for at least 20 seconds. You will find hand washing stations around the camp.
2. Covering coughs and sneezes with a tissue or use the inside of your elbow.
3. Avoid touching your face.
4. Limit close contact with others as much as possible (about 3 feet).
5. **Highland Lakes Camp will continue to sanitize and clean as needed to maintain a level of safety for all participants.**
6. Masks are not required; they are recommended.
7. Every person will be issued a water bottle. Please do not share your water bottles with others.
8. Churches will be issued a sanitation kit. Church adults and camp staff will work together to sanitize and disinfect bunkhouses and sleeping areas on a daily basis. You're free to clean and disinfect as frequently as you would like. NOTE: The CDC has concluded that COVID 19 is not spread through the touching of hard surfaces.
9. After leaving the bunkhouse in the morning, please reenter as little as possible. Camp staff will sanitize bathroom areas during the day.
10. The dining hall plan will be given to you on arrival. We will be eating by cohorts.
11. **All students and adults must sleep in bunks in a head to toe manner.** This will achieve 6ft distance from each other's head.
12. At worship you will be segregated by church groups. Groups will be dismissed by church name. Everyone must stay in their assigned area. No one is permitted to come to the stage area. We will ask students who respond to the invitation to move to a church leader in the back of the auditorium. Staff will direct counselors to the counseling area.
13. The Hill Country Camp Store will be open. Please limit close contact with others as much as possible (about 3 feet). Please sanitize hands before entering and leaving!
14. Always pray, always be flexible, and always have a good attitude.
